### THE BEST RECIPE FOR AN EXCEPTIONAL DAY

- **L.C.G.S MC 8.0®** reduces the negative effects of electromagnetic radiation, which includes, among others, UV radiation and blue light. In addition, it effectively protects your skin from oxidative stress and excellently contributes to the regeneration of the epidermis.
- **Tripeptid-38** is a new-generation, strong anti-wrinkle peptide that enhances the synthesis of 6 key ingredients regenerating your skin. As a result, it fills in wrinkles from the inside providing a visible effect of smoother and suppler skin.
- **An ultra-advanced antioxidant** that is activated only by UV radiation and provides long-lasting protection against free radicals. It will make you forget about a grey and tired complexion, and your skin will become more resistant to the negative effects of external factors responsible for the aging processes.
- **Low-molecular hyaluronic acid** is a natural polysaccharide that fills in the space between collagen fibres and, in consequence, perfectly hydrates the skin and makes it more elastic and rejuvenated.

### REVOLUTIONARY INGREDIENTS THAT PENETRATE YOUR SKIN DURING SLEEP

- **L.C.G.S MC 8.0®** affects the synthesis of two proteins that are of key importance to a youthful appearance: fibronectin, which interacts with, among others, collagen and proteoglycans, and protein p53, which participates in DNA regeneration. Therefore, it has strong anti-aging effects – it regenerates the skin and keeps it smooth.
- **The newest, milder generation of the vitamin A derivative** is currently one of the most effective anti-wrinkle substances, which slightly lightens the skin and visibly improves its appearance.
- **Edelweiss meristem extract** prevents the effects of oxidative stress caused by the air pollution and UV radiation, and has strong lifting effects on flabby neck skin, optically lifts your cheeks and smooths out crow's feet. It will make you forget about a grey and tired complexion, and your skin will become fantastically firm and more resistant to the negative effects of external factors responsible for the aging processes.
- **Shea butter** is a fat extracted from the nuts of the African tree gracefully named the Mangifolia tree, which in Africa has been considered sacred and has been worshipped for thousands of years. It leaves your skin perfectly soft and hydrated.

### FOR THE NEEDS OF DELICATE SKIN AROUND THE EYES

- **L.C.G.S MC 8.0®** – UV radiation and blue light have an adverse effect on the sensitive skin around the eyes – they cause oxidative stress, and also contribute to the appearance of wrinkles caused, among others, by excessive squinting. That is why the cream has been enriched with a complex that works in two ways: reducing the negative effects of electromagnetic radiation and facilitating the regeneration and smoothing of the skin, which slows down the aging processes.
- **A complex of an extract from *Albizia julibrissin* and darutoside** stimulates collagen synthesis and contributes to the skin regeneration process, optically stretching out crow's feet. Additionally, it has a lifting effect on the sagging upper eyelids, making them visibly firmer.
- **Low-molecular hyaluronic acid** has a strong ability to penetrate the skin, thanks to which it increases the firmness and elasticity of the skin.
- **Cyclic peptide and ectoine** have a deeply hydrating effect and optically stretch out wrinkles, making the skin suppler.
- **Caffeine** stimulates the micro-circulation of blood, slightly lightening unattractive dark under-eye circles.

### INTENSIVE EFFECTS THANKS TO PRECIOUS INGREDIENTS

- **L.C.G.S MC 4.0®** has strong anti-aging properties – intensively regenerates and smooths the complexion. It perfectly prepares the skin for the application of other beauty products, interacting synergistically with them and enhancing their effects.
- **The latest generation of vitamin A derivative** – more delicate for the skin – currently one of the most effective substances reducing wrinkles – slightly lightens dark spots and effectively improves the appearance of your skin.
- **Lipodipeptide** by stimulating elastin synthesis, it prevents the sagging of the skin, visibly lifting the face contour.
- A valuable **phytoestrogen complex** regulates the functioning of sebaceous glands.
- A precious combination of **caviar extract** and trace elements – **gold, silver and platinum** – contributes to the slowing down of the skin aging processes, optically reducing wrinkles.

### A PERFECT RECIPE FOR IDEALLY SHAPED BREASTS

- A unique **Volumenic Plus MC 12.0®** compound stimulates the maturation and differentiation of fat cells and facilitates the lipids storage process. This results in the so-called cosmetic lipofilling, which causes an increase in the volume of adipose tissue in the breasts and is a great alternative to aesthetic medicine procedures.
- A **Dictyoptales-family brown algae extract** provides nourishment to adipocytes, making the breasts look larger and fuller.
- **Algae** and **pullulan complex** rich in amino acids, polysaccharides, vitamin C and B12 strengthens the subcutis fibres, maintains and corrects the shape of the breasts.

### PERFECTLY SHAPED SILHOUETTE

- **Slimenum Ultra³ MC 16.0®** reduces the volume of fat deposits, excellently slimming down the body and visibly reducing the unevenness of the skin. As a result, it shapes your figure in 3D, providing effects that are comparable to those of ultrasonic procedures.
- **Xymenic acid** visibly increases the elasticity of the skin making it firmer and suppler. In addition, it enhances the capacity of the skin's antioxidative mechanisms, facilitating protection against oxidative stress and ensuring the beautiful and healthy appearance of the skin.
- A valuable combination of **sea algae** and **vegetable proteins** provide an optical lifting effect.
- **Extract from Bougainvillea spectabilis**, a valued plant from South America, is a technologically advanced ingredient that facilitates adipose tissue reduction processes and prevents the sagging of the skin, enhancing the synthesis of proteoglycans, collagen and elastin.

## INNER BALANCE NEW GENERATION

FOOD SUPPLEMENT

- **SACHETS FOR THE DAY:** The product was enriched with Vitamin B6. Vitamin B6 helps to keep the balance in the nervous system. As a result, you feel less "emotional" hunger by reducing the compensation needs associated with peaks of stress or anxiety. Dosages of other components were also adjusted, such as centifolia rose extract and nettle extract, which promote greater product tolerability and effective results.
- **EVENING SACHETS:** The old capsules were replaced by sachets to dissolve in water. This concept improves the absorption and use of the product ingredients. We adjust ingredients such as magnesium, which is important for promoting quality sleep. Associated with jasmine, a plant known for its calming properties. A quality sleep is essential when the goal is to balance your metabolism.

**RICH  
STRUCTURE**

The rich structure of PURE ROYAL 500 perfume, seemingly varying and contrasting, it creates a surprisingly coherent history. It starts with the fresh and bright tones of citrus notes and galbanum, accompanied by distinctive angelica and saffron. Next comes the heart of this fragrance – a flower bouquet with a hint of myrrh. At the end, it takes on its final character, showing its true majesty owed to organic-wood accords.

**FIERY  
FLOWERS**

Delicate floral notes seasoned with fiery pepper and a wealth of spices. Flawless, pure, beautifully intense. It brings to mind a bouquet of beautiful, delightful roses whose beauty is as attractive as it is mysterious and dangerous.

## HOW TO PROPERLY LIGHT THE CANDLE

Before each lighting, cut the wick to a height of about 5 mm, so that the flame will be stable and the candle will not smoke. Burn it for 3 to 4 hours – this will prevent tunnelling (the wax will melt evenly), and will also allow the candle to develop a full bouquet of aromas.

## THE HIGHEST QUALITY STANDARD

Home Ritual scented candles meet strict requirements of the German RAL standard in terms of:

- **scent intensity**
- **optimal burning behaviour**
- **wick quality – a strong cotton wick of suitable thickness, resistant to breaking and drowning**
- **minimal smouldering, which does not pollute the airways**
- **reduced soot, which ensures the candle looks beautiful when used**

### NEON GLOW – FLUORESCENT FACE AND BODY PAINTS WITH A BRUSH

The color of ordinary pigments depends only on the reflected light, but neon fluorescent pigments combine the light emission phenomena caused by ultraviolet light and the stimulation of reflected visible light, respectively. It is possible to obtain vivid colors with high luminous effects, lightness and saturation. Highly concentrated colored powders emit visible or invisible light as a result of the action of short wavelength light. The pigmented surface must be exposed to a UV lamp or a diode with ultraviolet light to provide a special glowing effect. The most important feature of fluorescent colors is that they glow, are vivid and noticed much faster than regular colors.

#### VALUES

- This neon body paint is the perfect accessory to spice up parties, festivals, evenings, dressing up, going out with friends, clubs with UV light
- Each pack contains a rainbow selection of colors in various saturations and shades: red, orange, yellow, green, blue, purple, pink
- For adults, teenagers and children
- Color pigments reacting to UV rays are non-toxic and non-radioactive
- UV powders are made of substances that do not harm the environment or the health of the user (they can even be used by children)
- UV pigments do not lose their color properties and intensity over time. The pigments feature vivid color, strong fluorescent effects, good dispersity, and great particle fineness
- Easily removable with soap and water
- Excellent value for money as a little bit of paint goes a long way
- Content in the cup: ca 1,1 g

### EASY TO USE

- Using circular motions, with the help of water and a brush, loosen the top layer of the color to obtain a smooth and homogeneous, creamy mixture
- 3. Apply multiple layers to skin for best glow under UV light
- Easy remove with soap and water

### EFFECTS

Express clear and beautiful colors:

- In daylight – **neon colors**
- In the dark – **no glow**
- In the dark with UV light – **Vibrant + Bright + Neon UV Glow**

### TIP

The paint is most commonly applied by fingers, but it can also be applied with brushes or sponges. No limits!

Glowing neon body paints are based on fluorescent pigments. They are powders in a finely divided state with a distinct color and fine particles. However, to obtain the luminous effect, the pigmented surface must be exposed to a UV lamp or a diode with ultraviolet light. Since most of the glow we see is actually reflected light, the brighter the background color, the brighter the glow appears. It is based on the emission of light waves through an excited molecule or atom, for which phosphors are responsible. Therefore, fluorescence is classified as photoluminescence. Light is only emitted when the pigment is exposed to the rays. When such rays stop being emitted, the effect disappears instantly. The color remains vivid, but without the glow effect.
